## PASTORS SUBMIT ANNUAL REPORTS

### Fine Progress Made In Conference Past Year.

Twenty Question Called by Bishop Hendrix At Yesterday's Session of Methodist Conference—Mrs. Robertson Makes Talk—Dr. W. P. Few, of Trinity, Before Conference—Mass Meeting in Interest of Children's Home Last Night.

Winston, Nov. 18.—The devotional exercises at this morning's session of the annual Western N. C. Conference of the Methodist Episcopal church were conducted by Bishop Hendrix, who spoke on friendship. The minutes of yesterday's session were read and approved, after which Dr. William P. Few, president of Trinity College, was introduced to the conference. This is the first conference Dr. Few has attended since his inauguration as president of Trinity College and he received a cordial welcome from the body. He made only a few remarks to the conference, expressing in a brief manner his pleasure at being present at this session.

The report of Trinity College was read and adopted. This report showed large increase in endowment, a more complete equipment for carrying on the work of the college, an increased number of students in both the college and Trinity Park School. The report was altogether encouraging.

The call of the 20th question was re-

sumed and the names of the pastors were taken up in regular order, and after their characters were passed, they submitted their reports. The reports showed that fine progress had been made along all lines.

The call was begun with the Asheville district, and most of the pastors were present to submit their reports. Rev. D. Atkins, D. D., presiding elder, reported for those not present. Speaking of the work on the district as a whole throughout the year he showed that it was just closed had been one of fine progress along all lines.

Speaking of the work of Rev. G. G. Harley at Chestnut Street church, Asheville, Dr. Atkins said a great work had been accomplished under the direction of Mr. Harley. He said the condition of that church was two or three hundred per cent. better now; than it was when Mr. Harley was appointed pastor two years ago.

The report of Rev. H. K. Boyer, presiding elder of the Charlotte district, showed that during the year a number of revival meetings had been held in the district, resulting in eleven hundred professions of faith and several hundred additions to the church. He said the meetings held had been revivals of unusually high order.

Churches on the Charlotte district support three missionaries in the foreign field and several native workers.

Mrs. Lucy H. Robertson, president of the Woman's Foreign Missionary Society of the conference, and president of Greensboro Female College, was introduced. Her words to the conference were especially with reference to the work of the college, and she showed that it is enjoying a very prosperous year, every room being occupied with students, and the student work being done in the highest order.

Mrs. T. F. Marr, president of the Woman's Home Mission Society of the Conference, was introduced. She spoke briefly of the work of the society in general throughout the conference, and dwelt more especially upon the splendid work which is being accomplished through the agency of the Brevard Industrial School. Mrs. Marr urged the preachers in the conference to become more thoroughly informed regarding the Home Mission Society and the work which the women are doing through this agency.

Rev. L. D. Beatty, representing the American Bible Society, addressed the conference, speaking especially of the increased circulation of the Bible during the past three years.

The order of the day for 11 o'clock was the reception of a class of nine undergraduate traveling preachers into full connection. Those who composed this class were the following named:

C. C. Brinkman, P. Brittain, J. O. Er-

r, T. J. Honch, J. A. Fry, J. F. Moser,

E. W. Womack, T. S. Coble, J. H. Robert-

This feature of an annual confer-

ence is always of special interest and impressiveness.

The address of Bishop Hendrix to the class this morning was filled with suggestions of helpfulness, not only to the men admitted into full connection, but to all who heard him. He dwelt especially upon the importance of a full recognition on the part of every preacher of a personal experience from which will extend an influence that will command confidence in the man and in the Christianity which he represents. He urged also the importance of a thorough understanding of what are the duties of a preacher and a pastor, and emphasized the duty of every pastor to feed the flock committed to his care.

Tonight a mass meeting was held in the interest of the Children's Home, this being largely attended by not only the conference delegates but by a large number of Winston people.

This afternoon the conference attended in a body a concert given by the pupils of Salem Female Academy. This was greatly enjoyed, the young ladies rendering a most delightful program.

Considerable interest is being taken in the appointments for the coming year and there are many surmises as to the location of a number of the more prominent ministers. Then too the place of meeting is of interest, especially to the delegates from Statesville and Hendersonville, each town being desirous of entertaining the next conference. This question will in all probability be settled tomorrow. On Sunday all the pulpits in the city will be occupied by visiting ministers.

#### HIS LITTLE SON SAVED HIM

Lad Awoke To See Negro With a Razor At Father's Bed.

Rockville, Md., Nov. 18.—When a little son of James E. Devin, of Germantown awoke Tuesday night to see a big negro with an open razor four feet from his father's bed, he did not yell, but shook his father awake.

Mr. Devin got to his gun before the negro got through the window. He is positive his shot took effect, as he heard the thud of a falling body.

Mr. Devin had only the one cartridge and hesitated about making himself conspicuous. He saw that the intruder had several companions outside, who assisted him to get away. He is positive his shot took effect, probably in the negro's back, as he was going over the window sill.

Next morning Mr. Devin found boxes piled up against the wall of his house, showing that the ascent was made that way.

Sheriff Viett heard Wednesday that a Germantown negro had applied at a Washington hospital for treatment for a gunshot wound in the back. He spent today in Washington trying to connect with the patient. It is thought there will be little trouble catching the negro.

Mr. Devin recently had a negro arrested on the charge of keeping a disorderly house. He hesitated to swear out a warrant for the woman because he feared bodily injury. But his family had stood the disorder, he said, as long as possible, and he took a chance. With his family, Mr. Devin is highly regarded, and the county is stirred as it has not been for years.

## PILL ROLLERS ARE LICENSED

### Thirty-One Applicants Are Successful.

State Board of Pharmacy Turns Down Twenty-Eight Applicants For License

—The Successful Applicants—Adj. Leinster Takes Oath of Officer to Succeed Late Gen. Armfield—Social Function In Honor of Mrs. Platt D. Walker.

Raleigh, Nov. 18.—Of the fifty-nine applicants for license to practice pharmacy in this state examined this week by the state board thirty-one were successful making the required minimum grade. The new pharmacists follow:

Tommie J. Aiken, Raleigh; Carl Finger, Stanley; Walter F. Matthews, Silver City; Oscar T. Alexander, Charlotte;

Ernest N. Tillot, Durham; Zachery B. Rucker, Charlotte; William M. Staley, Statesville; Edward G. Scott, Spray;

Claude N. Smith, Southern Pines; John H. Stinson, Statesville; Harry Reid Stowe, Belmont; Skinner A. Clark, Edenton; Harold M. Cole, Carthage; Claude B. Clark, Durham; Walter B. Cherry, Winston-Salem; Henry Grady Coleman, Chapel Hill; William S. Frieze, Concord; Lewis I. Grantham, Durham; Clarence I. Godwin, Pine Level; Lewis F. Hesterly, Hendersonville; John B. Jones, Fair Bluff; Agnes H. McDowell, West Durham; Jon. E. Murray, Durham; Calvin B. Phillips, Lincolnton; Henry C. Reece, Raleigh; A. H. A. Williams, Oxford; George S. White, High Point; Herbert W. Wohlford, Charlotte; Isaac L. Zackerman, Durham; D. G. Taylor, Leaksaville; Kelly N. Summey, Dallas.

Yesterday afternoon shortly after 1 o'clock, R. L. Leinster took the oath as adjutant general of North Carolina, having been appointed by Governor Kitchin to succeed the late General Joseph F. Armfield. The oath was administered by Col. A. H. Arrington and was witnessed by General Carl Woodruff, General Francis Macon, H. A. Grady, Col. Geo-L. Peterson, Sergeant Waddington and Mr. W. A. Hunt.

A social event of unusual distinction and charm was the tea given yesterday afternoon by Mrs. W. A. Hoke in honor of Mrs. Platt D. Walker. Apart from

the wide and honorable popularity which Judge Hoke enjoys, Mrs. Hoke has made for herself a circle of warm personal friends since coming to Raleigh to live.

It was peculiarly appropriate that she should give them the opportunity of welcoming Mrs. Walker, whose marriage to Associate Justice P. D. Walker was one of the notable occasions of the past summer. Mrs. Walker wore a handsome white gown which was very becoming to her blonde beauty, and Mrs. Hoke wore pale yellow crepe and carried an armful of yellow chrysanthemums.

An Interesting Thanksgiving In Prospect For McLeansville.

Under the auspices of the Woman's Betterment Association of the McLeansville graded school there will be on Nov. 24 a "fair" in the day followed by an entertainment and oyster supper at night. At the "fair" the people of the vicinity will display their stock of all sorts and produce of all sorts just as they do at a regular county fair. After the entertainment at night, for which there will be no admission charge, the ladies will serve oysters, sandwiches and coffee. Every one is invited to attend.

Death At Summerfield.

Mrs. Harriett A. Gamble died yesterday morning at the home of her stepson, Mr. R. O. Gamble, at Summerfield.

Death was due to a stroke of paralysis received several days ago. Mrs. Gamble was also the stepmother of Mr. C. W. Gamble of this city. She was 76 years of age and was a woman of strong Christian character. The funeral will be conducted from the Summerfield Methodist church this morning at 11 o'clock by Rev. Mr. Goode.

To Wrestle Next Wednesday Evening.

On Wednesday evening, November 23, at the Grand, Mr. S. E. Hipp and Mr. T. O. Parker are to enter the ring for the middleweight wrestling championship of the world. Mr. Hipp at present claiming the honors. Mr. Hipp weighs 172 pounds and is 5 feet 5 inches in height.

Mr. Parker weighs 170 pounds and is 5 feet 9 inches in height. Mr. Parker claims never to have suffered defeat and says that he will be at his best on the night appointed.

## BIG CASES IN FEDERAL COURT

### White Slave Traffickers to be Tried Here.

Cases To Come Up At December Term of United States Court—Two White Men in Jail At Charlotte Charged with Awful Crime—The Punishment For Such Crimes—Number of Other Cases on the Docket Awaiting Trial.

When the December term of United States court convenes here on Monday, December 5, there will be a large number of cases on the docket awaiting disposal, some of them being of more ordinary interest.

The case of greatest interest will be that of United States vs. Jas. W. Napier and E. Charles Quaster,

who are charged with engaging in the white slave traffic. The defendants were arrested in Charlotte some weeks ago by Deputy Marshal Blaylock and other officers and they are now in the Mecklenburg jail in default of bonds of \$2,500 each. True bills have been returned against the men, there being nine counts in the bill of indictment.

The defendants operated what was known at the Napier and One Show at a number of the county fairs in the State, Greensboro and Raleigh excepted, and also at the Danville, Va., fair. The officers got on to their illegal operations and caught them at Charlotte. The law provides that persons convicted of this crime, which is a felony, can be fined as much as \$5,000 or imprisoned for not more than five years, or both, the fine and term of imprisonment to be fixed by the court, according to the merits of the case.

In case the girls trafficked in are under 18 years of age the penalty is doubled. In this case six of the nine girls were only sixteen years of age. Six girls were from Danville, Va., and three from Baltimore, Md.

Napier is also charged with robbing the Southern Express Company and with using the United States mails to further his schemes. He is under a \$2,500 bond in this case also. He would order a diamond ring from a Northern jewelry store, having the same sent by express, c. o. d. if satisfactory. In examining the ring he would deftly substitute an imitation diamond, the exact size of the genuine stone, and then would refuse to accept the ring. The package would be returned to the company, which would at once discover that the ring returned was not genuine and would require the express company to make good the loss of the genuine stone.

Another case is that of Frank Tran-

kle, who is charged with counterfeiting.

The crime was committed in Forsyth county some years ago. The defendant has just completed a sentence in the federal prison in Atlanta for an offense committed in Baltimore, Md. He is in Guilford jail awaiting trial.

In addition to the above there are a number of blockading cases and it is be-

lieved that nearly two weeks will be

consumed in clearing the docket, after

which several civil cases will be taken

up, prominent among which is the Nick

Williams libel case, regarding the seizure

of some 30,000 gallons of whiskey by the

federal officials to insure collection of his forfeited bond.

## A JOKE SENDS HIM TO JAIL

Capital Man Closes Throttle on Hoisting Engine.

Baltimore Sun.

The peculiar idea of a joke entertained by Jarrett Morgan, a street car conductor of Washington, not only endangered the lives of many people yesterday morning, but won for him a punch in the jaw and a fine of \$25 and costs at the Western Police station. As he was unable to pay he will receive nearly a month's board at the jail.

Morgan came to town with Otto Bennett, a fellow-conductor, and both were ready for a lark when they approached the Emerson tower, in course of construction at Eutaw and Lombard street. A six-ton steel column was being hoisted to the fifteenth floor of the tower and the great mass of metal hung from the derrick boom over the centre of the street.

Then Morgan got his jocular inspiration. Darting to the throttle of the hoisting engine he closed the throttle, the derrick boom jerked alarmingly and the column hung motionless over the street.

John J. Elwood, the engineer, looked behind him to see what had stopped the engine, and a boy standing by pointed to Morgan. The engineer lost no time, but dealt him such a stiff blow that he was lifted off his feet. While he picked himself up, Walter A. Smith, superintendent of the ironwork construction summoned Sergeant Ostendorf and Patrolman Ganley. Morgan and his companion were arrested.

At the Western Police Station both were charged with disorderly conduct. Justice Loden being unable, to his regret, to find any law that covered the case and provided a heavier penalty. Bennett, yidsteefine.tend. bn-e - o ... s. swu who said he did not know what Morgan intended to do, was released.

At the hearing it was explained that the sudden stopping of the engine served to jerk the derrick boom and create an additional strain on the irons that held it to the mast. If one of these irons had broken and the column crashed to the street, it is probable that several persons would have met death.

Not Sorry for Blunder. "If my friend hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, lagrige, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. ## A GEM OF POESY.

Maybe It Was the Heat That Made It Burst Into Being.

Stewart Edward White, William Kent and myself were hunting mountain sheep in the ranges of Mexican California. Perhaps because the savage heat of the desert which we were crossing had somewhat gone to our brains we fell to making poetry upon various aspects of desert life. White rhapsodized upon the tarantula; Kent dithyrambed over the pack mule; I sang the praises of the jack rabbit. Finally White, who was cool for the day, offered a special prize of duff with raisins (the last remnant of our store) for the premier verse to be turned out before sunset. At noon we met up with a wandering prospector who introduced himself as J. Noel Benson, native son of California, and observed upon learning of our literary efforts that he was some poet himself. On being invited to enter the list he retired to the top of a mesa, where the thermometer was something like 110 in the absence of shade, and after half an hour of self communion returned with the following gem of poesy:

### THE GNAT.

The gnat he is a noisome mite.  
He loves to buzz. He loves to bite.  
He crawls upon you when you're hot.  
I love the naughty gnat—not!

The duff was awarded to him without protest from the other contestants. —Success Magazine.

### A Household Medicine.

To be really valuable must show equally good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds. Howard Gardner.

### FIANCEE SEEKS HIM HURLED TO DEATH.

George N. Root, of Lenox, thrown from an overturning automobile and his skull crushed.

Lenox, Mass., Nov. 17.—Mr. Geo. N. Root, treasurer of the Lenox Savings Bank, and a member of several leading organizations of this place, was killed today in the presence of his fiance, Miss Florence Mahanna.

They, together with Mr. Root's brother, Willis, were returning to Lenox from Pittsfield in an automobile. The roads had a thin coating of ice following snow flurries. In turning a corner the automobile skidded and overturned. Mr. George N. Root was thrown to the curb on his head, which was crushed.

His brother was caught under the automobile, and sustained a broken leg and other injuries, including possibly a fracture of the skull. Miss Mahanna fell on her hands and knees and escaped serious injuries.

Rising, she rushed to where her fiance lay, called upon him to speak, and, finding that he was dead, fell in a faint. She was removing to her home after recovering consciousness, and is under the care of a physician.

Mr. Willis Root was pinned under the automobile nearly five minutes before he was released. Mr. George N. Root was thirty-five years old, and was to have been married soon to Miss Mahanna. The automobile was proceeding at a moderate speed when the accident took place.

### Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings, backache or headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c at Fariss-Klutz Drug Co.

PHONES DAY 762 NIGHT 1442

The  
Deserted House  
By EDITH V. ROSS  
Copyright, 1910, by American Press  
Association.

There was smuggling on the coast, but we revenue officers were not able to locate the point where the goods were being run in. We were told that it was a beach midway between the two principal ports of the region. We watched the coast night and day for weeks, but not a sign of illicit work did we see. Driving to the city, I reached a point on a rocky coast. Night was coming on, and no hotel or other shelter was at hand. I espied a house a short distance ahead of me, set on rocks against which the waves were beating. It was of brick and colonial in style, with long pillars extending from the porch to the roof, which was built out to cover it. The place had a forlorn look, and on coming up to it I found it unoccupied.

I went around it, thinking that if I could effect an entrance I would at least find shelter there for the night, but there was not a window or a door that was not perfectly secured. I was about to drive on, when I espied a limb of a tree brushing against an upper window, one shutter of which had rotted away. I climbed the tree, went out on the limb, broke the glass and entered the house.

Had it not been for curiosity I would have gone out as quick as I came in. While it was furnished throughout, there was not an article in it that was not rotting away. There was bedclothing, but it was moth eaten; there were curtains, but they were dropping from their supports; there were carpets, but they came apart as I walked over them. The only live things in the house were millions of bugs.

I would have retired from this dismal abode and slept in the open air, but the night was cool and I espied a fireplace in one of the rooms. So with the fragments of once handsome chairs and other articles I built a fire. Then, having gone out for my blankets and stabled my horse, I rolled myself in the former, lay down before the fire and slept.

Something awakened me, I knew not what. The fire was out, but there was a strip of light on the ceiling above my head. While I was viewing it with perplexity it moved. In a moment, remembering that I was on the ground floor and the flooring had shrunk so as to leave cracks, it occurred to me that there was some one in the cellar. Noticing a round spot of light on the ceiling, I knew it came through a knot-hole, and, crawling to the hole, I could look into the cellar.

Several men were storing bales and boxes.

"Oh!" I exclaimed to myself. "Here is the leak! While we have been watching the smugglers above they have been running goods in down here. I warrant the man who put us on to the false location was one of them."

I made up my mind very quickly as to my course of action—that is, in case they didn't go to the stable and find my horse, which would betray me. I would remain where I was till morning, then pursue my journey, return with others lie in wait for the smugglers and capture the gang. They were not in the cellar ten minutes after I awakened. Then the light ceased to shine, and there was no further evidence of their presence. I listened to hear them go out, to make sound of locking a door or give other evidence of their departure, but not a whisper did I hear. They seemed to have gone into the ground or flown up a chimney.

In the morning I went into the cellar, examined the goods, consisting of silks, laces and other articles to which a high duty is attached. I then went above and looked carefully to the openings. They were all barred and bolted on the inside. Returning to the cellar, I looked about for some means of egress there. I found none. There seemed to be no way the men could get out except as I had come in, through a window.

But how did they bring in the cases of goods?

Not willing to leave the place without further investigation, I walked all over the premises and down to the rocks on which the waves were breaking. Unfortunately the tide was high. It was unfortunate because I could have made a more satisfactory examination of the rocks if it had been at the ebb. I resolved to drive to the nearest farmhouse, get a breakfast and return in six hours when the tide would be at the lowest point. When I went back I found that a rock had been left exposed which I couldn't see from the shore. There was no boat at hand, but the water was sufficiently shallow for me to get on to a small rock farther out. After reaching it I turned and saw an opening in the rock into which a boat could be pulled at half tide. I was bound not to go away without knowing all about it, so I made a raft, pulled myself to the opening and walked through a passage leading in the direction of the house, till I was barred by an iron door.

That satisfied me for the time. I went home, brought assistance, entered the house when no one else was about, waited for the next appearance of the smugglers and took them all in. Subsequent investigation showed that they had concealed a trapdoor in a subcellar with earth, the trap opening into the passage leading to the water. At high tide the mouth of the passage was concealed and at low tide resembled a mere cleft in the rocks.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always itches which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; it killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Not having heard from Senator Bevbridge during the past moon, we conclude that he, too, has entered the cloister.

Augusta and Charleston continue to be the most exclusive of our Southern cities.

Who was it that first dubbed a single human being a "party"? Must have foreseen the present organization of the New Nationalism.

It seems that San Francisco is bound to have that Exposition. She has just voted another \$50,000 to the fund, and with very few dissenting ballots.

The American fleet is now in English waters on a cruise of pleasure. Thus the taxpayers are at least aiding a few young Americans to see something of the world.

Why should South Carolina take all the corn championship prizes? Can better corn be raised in sand hills than the rich undulating uplands of Piedmont North Carolina?

Columbia University has instituted a course in farming. It would seem that it would complicate the educational system less if the farming courses were left to the agricultural colleges.

There will be no more "saloons" in Jersey City, the local liquor dealers' association having sent out an edict to call them all "cafes." As a rose by any other name would smell as sweet, so a saloon by any other name is just as dangerous and deadly.

In announcing a decision favorable to the oil trust, Federal Judge McCall, of Jackson, Tenn., declared that the great and the small have the right to an equal footing before the law. True but it is to be observed, nevertheless, that the great usually get the best end of the law.

Ralph Johnstone, a noted aviator, was killed at Denver day before yesterday by a fall of 500 feet. Horrible as this was, it wasn't as distressing as the incidents following the fall as described in the following paragraph:

Scarcely had Johnstone hit the ground before morbid men and women swarmed over the wreckage fighting with each other for souvenirs. One of the wooden stays had gone almost through Johnstone's body. Before doctors or police could reach the scene, one man had torn this splinter from the body and ran away carrying his trophy with the aviator's blood still dripping from its ends.

We mentioned yesterday the evidence of depravity as found in the rotten egg industry of New York City. In the above described conduct of the souvenir-hunters of Denver there is still more ghastly evidence that some men and women are beasts in human form.

The Democrats in their talk are already electing the next president of the United States, but there is opportunity for much to happen in two years. Political waves have a disconcerting way of receding—Springfield Republican.

The Springfield paper is doing the Unterrified a real service by that kind of talk. Let it keep up the good work. The Democrats have got to understand that it is essential for them to maintain the good impression on the country which they have been maintaining of late if they hope to remain on the crest of the political wave through the election of 1912. One of the late cartoons presents the Democratic donkey laboriously threading his way up a steep and rocky road at the far end of which stands the White House, and the cartoon conveys the truth much as it is, but we believe that the Democratic par-

ty is going to be on its good behavior and that the next President will be a Democrat.

The Charlotte Medical Journal for this month has a valuable article in which there is urged the instruction of the young as to the dangers of alcoholism and its associated evils. The article was read before the Medical Society of Virginia by Dr. V. W. Harrison, of the University College of Medicine, Richmond. Dr. Harrison declares that fraternity and college life are sometimes the places at which young men start down the hill of life to end in a drunkard's grave. Continuing he says:

I believe the immoderate use of alcohol will ruin the mental, physical and moral life of the young.

But how about the moderate drinkers, Doctor? This question, so often asked, is answered by implication when Dr. Harrison goes on to say:

The physiological action of alcohol on the brain and nervous system is at first to stimulate their action. Thoughts flow more freely. But it is for a time only. Soon depression of the brain follows, so that it requires a larger quantity of alcohol to produce the same amount of stimulation, until finally there is no stimulation. All is depression.

Sooner or later the brain and nervous system become diseased, memory is impaired and the capability of doing good work is lost.

In other words the inevitable tendency of the moderate drinker is towards immoderate drinking. And immoderate drinking, according to Dr. Harrison, produces catarrh of the stomach, constipation, inactive liver, irritability of temperament, and has associated with it in 50 per cent of the cases, nephritis.

Since the tendency of all drinking is to become immoderate and since immoderate drinking is attended with such dreadful consequences, clearly the only safe course for the young to pursue is to be total abstainers. Some men are weak. In fact most of them are. If the whiskey habit gets them, they are gone. To be on the safe side they have to shun liquor as they would a serpent. And it is extremely important, as Dr. Harrison insists, that the facts about alcohol be impressed upon the minds of the people early in life.

WEST MARKET STREET  
BARACA CLASS "AT HOME"

## Enjoyable Event in New Sunday School Annex Last Evening.

The West Market Street M. E. church Baraca class gave a delightful "at home" last night in honor of the First Philanthropic class of the Sunday school, in the new Sunday school annex.

There have been several enjoyable receptions given by the societies of this church, but none were more of a success than the one held last night, at which two hundred or more guests were present and enjoyed the splendid program arranged.

The G. F. College Glee Club gave two numbers which were up to their usual standard and were greatly enjoyed—the last number—"Dixie," being sung by request. Mr. Ljung in a tenor solo also shared in the honors, while Miss Eula McCrae, after two readings, was encored heartily. After her second selection she gave "The Yale Piece," by request. The male quartet, composed of Messrs. Wheeler, Ljung, Clapp and Fields, took the crowd by storm and no number was more enjoyed, unless it was one by the Glee Club.

After this program the guests were ushered to the dining room in the basement where refreshments were served; consisting of club sandwiches, hot chocolate, wafers, ice cream, cakes and mints. Needless to say these were enjoyed almost as much as the program, and many were the complimentary remarks made in thanking the young men for preparing such a good time.

The successful aviator has some excuse for feeling uppish.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## HOT WATER FOR STUDENTS

Plant At Elon College Connected With Dormitory—Thanksgiving Festivities. Elon College, Nov. 18.—Mr. J. B. Hobby, of Wake county, has been on a visit at the home of Dr. and Mrs. Atkinson for the past several days prospecting in this community with reference to locating here.

The new heating system for hot water which has been installed in the power house is connected on to the east dormitory and is giving great satisfaction to the young men. The system is a complete one and will furnish hot water in unlimited amounts for the various college buildings.

Prof. T. C. Amick is at Kernersville this week attending the sessions of the N. C. Conference of the Methodist Protestant church.

Prof. W. A. Harper also attended the opening session of this conference on Wednesday evening, where he spoke on the subject "Christian Endeavor, how to make it effective." He also went to Greensboro last Sunday morning and delivered an address in the Palm Street Christian church on the subject "Organized Classes and what they ought to accomplish."

Dr. J. F. McCulloch, editor of Our Church Record, Greensboro, preached at the college last Sunday. He delivered a most excellent sermon.

Thanksgiving will be duly observed at the college. There will be religious services in the chapel on Thanksgiving morning, and the annual Thanksgiving dinner in the west dormitory and social conviviality during the afternoon and the public entertainment for the Philological Literary Society during the evening. Quite a number of visitors are expected to be present for these functions.

## Methodist Protestant Herald.

The name of the organ of the Methodist Protestant church in this State has been changed from "Our Church Record" to "Methodist Protestant Herald." The new name appeared on the publication for the first time this week and in speaking of the new name the editor says: "We wish this paper to be more than a mere record of passing events in our church life; we wish it to have a share in the propaganda of the denomination. We wish it to be a herald of the great truths our fathers sought to incorporate in our never die, though men may try to ignore them and even overthrow them. Yes, we hope you will like the name—"Methodist Protestant Herald"—because it sounds well and means well."

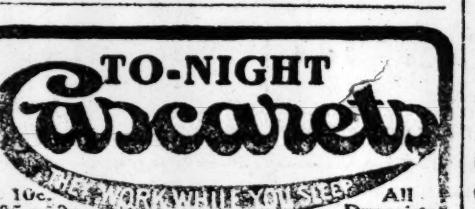

Even when it cries the father of a first baby always thinks it's a howling success.

## USED ECLIPSE TO COVER CRIME

While Earth Was Veiled in Darkness Wednesday Night Monroe Herbin and Will Slade Visited Convenient Corn Pile and Made Good Haul—In Lockup.

Two negroes in Greensboro were made most happy on Wednesday night when the moon went into eclipse and taking advantage of the fine opportunity offered they secretly paid a visit to a convenient cornpile and departed with well laden sacks on their shoulders. Now they have regrets, for on yesterday they were locked up by the ever watchful police and this morning will face Judge Euro to answer for their crime.

The negroes, Monroe Herbin and Will Slade, alias Will Morton, had for several days, viewed with longing eyes the fine pile of corn belonging to B. Johnson, who operates a slaughter house near the city. In fact, one of the negroes had helped to shuck the corn. Several mornings ago after the moon had set they made their first visit and walked off successfully with a sackful apiece. But the first trip only made them long to make a second call at the corn pile. The full moon was shining so bright that they were afraid to take the risk and were mournfully discussing the matter on Wednesday night, according to their own statement, when Monroe happened to glance at the moon and saw its radiance was fast disappearing. "De good Lord am wid us Will," he exclaimed as the earth fast became darker as the shadow obscured the face of the moon. "Now am our time to git another turn of Marse Johnson's corn."

They silently departed and when the face of fair Luna had become unveiled and the moon was casting her full quota of radiance upon the earth Monroe and Will were disposing of their stolen goods at the store of a Jewish merchant in Warnerville. In some way the officers caught on and soon had the negroes in custody. They admit stealing the corn

## YIELD OF CORN IN SOUTH INCREASED

In States Traversed by Southern Nearly One Hundred Million Bushels More Raised This Year Than Last—Increase In Yield Per Acre of 2.5 Bushels.

Atlanta, Ga., Nov. 18.—The splendid progress which the South is making in the movement for the production of food supplies at home is well evidenced in the figures as to the corn crop for 1910 given in the last report of the Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture. The eight states of the Southeast traversed by the Southern Railway, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Kentucky and Tennessee, show an increase over 1909 of 91,247,000 bushels.

Two negroes in Greensboro were made most happy on Wednesday night when the moon went into eclipse and taking advantage of the fine opportunity offered they secretly paid a visit to a convenient cornpile and departed with well laden sacks on their shoulders. **DON'T SAY YOU'RE OLD**

You only feel old.  
Digestive organs are weak—don't assimilate food as they used to.  
Other organs act more slowly and less effectually.

Blood is thin and sluggish.  
Renewal of strength does not equal the wear and tear of your system.  
That's what makes you feel old.

Nothing in the world will tone up and invigorate those weak, backsiding organs, make rich blood and create strength so quickly as Vinol.

Vinol is not a secret nostrum, simply the medicinal elements of the cod's livers, with the useless nauseating oil eliminated and tonic iron added. Try a bottle of Vinol with the understanding that your money will be returned if it does not make you stronger; feel younger and give you an added interest in life. **DIDN'T WASTE WORDS.**

The Stoical Mountaineer Simply Answered the Question.

"For stoical indifference and tacturnity," said a young man from Knoxville, Tenn., who was visiting in Louisville a few days ago, "I never saw any one that could equal the Kentuckian mountaineer."

"Two years ago I was camping during the summer with a party of young men and women in the mountains. During our stay there we became acquainted with an old mountaineer whom we called Sam. He always referred to his wife as Maria, and we fell into the same habit."

"Last year we returned to the same place to camp. As we were going up the mountain path on our first day out we met Sam walking along apparently in a deep study."

"Hello, Sam!" we all called. "Where's Maria?"

"She's comin' back there," he said, directing his thumb backward over his shoulder.

"We went on up the mountain path and a short distance farther came upon a party of mountaineers transporting a dead body in a rickety wagon. It was a funeral party. Imagine our surprise when we were informed that the deceased was Maria. Sam had not thought it worth his pains to inform us that Maria was dead when he stated she was 'comin' back there.'—Louisville Times.

**THE ENGAGEMENT RING.**

Advice the Jeweler Gave the Young Man Who Was Investing.

"Some of these jewelers are an accommodating lot," remarked the young man in the light suit. "I went in the other day to buy a diamond ring."

"For a lady?" the clerk asked me. I told him it was.

"An engagement ring?" he asked me further.

"Yes," I told him, getting a little bit peevish, "but I don't see what business it is of yours what I intend to do with the ring after I've paid for it out of my own private funds."

"Don't be offended," says the clerk in a conciliatory tone. "I was just going to suggest that if it was simply a present, with no engagement going with it, you go in for size rather than for quality, and when the girl comes in to inquire about its value we'll lie \$50 or \$75 worth for you. But if it's an engagement ring I would advise you to get the best quality you can find, even if it does mean a smaller stone. Just as a matter of sentiment you'll want to know that it is right, and then if you ever get in hard luck you can pawn the good ring for two-thirds of its value."—Cleveland Plain Dealer.

**The Toad's Tongue.**

The skillful manner in which a pet toad used its wonderfully formed tongue entitled it to be ranked as an expert. For one thing, it showed wonderful skill in judging distances. The tongue was never darted out until the insect came within a certain range. The accuracy of the creature's aim was another matter for surprise. The insects were generally in motion when the tongue was darted out against them, but the arrow never failed to hit. The rapidity with which the tongue was shot forth excited much wonder. The operation is a complex one. The tongue is doubled or folded up when in the mouth. Therefore a twofold action is required, an uncoiling of the weapon and then the darting of it forth. The withdrawing of the tongue with the captured insect on the tip was not less remarkable. Notwithstanding the rapid motion, the fineness of the tongue tip and the strength of the prey the victim was never dropped.—Exchange.

**PERFECTION**  
**SMOKELESS**  
**OIL HEATER**

*Absolutely smokeless and odorless*

It quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be cleaned in an instant. It has a cool handle and a damper top.

An indicator always shows the amount of oil in the font. It has a filler-cap which does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently it can always be easily unscrewed in an instant for rewicking.

The Perfection Oil Heater is finished in japan or nickel. It is strong, durable and well made, built for service, yet light and ornamental.

## 50 Per Cent ALBUMEN

HEAD BANDS IN  
SCHOOL BARRED

We have the following report on an extreme case of Bright's Disease. Patient, Frank H. Chandler, Clay, New York, member of Salt Springs Lodge, F. & A. M., No. 520, Syracuse:

The physician was called in May, 1908. Diagnosed it as Bright's Disease,

with albumen 22 per cent. Dropsey soon appeared from head to foot. Case received treatment and became alarming. A specialist and two other physicians called in consultation. At this point patient was nearly bursting with dropsey. Had to be tapped, four quarts of water being drawn. The situation was complicated with paralyzed condition of the bowels. Stomach would only retain peppered milk. Distressing uremic headaches and eyesight impaired. At this point the family called in a fifth physician. He gave no hope. Tests by the College of Medicine, Syracuse, N.Y., showed 50 per cent albumen with casts.

At this critical moment the patient's family heard of a friend whose case was pronounced hopeless and had recovered. They investigated and found that the recovery was through Fulton's Renal Compound. Sent for it and put the patient on it December 25th.

Case stubborn and yielded but slowly. The first favorable symptom noted was that the patient began to sleep normally. The dropsey began to decline and was finally completely eliminated. Complications subsided with gradual disappearance of albumen and casts. The patient slowly gained 23 lbs. in weight and now reports good health.

This case presented one of the hardest cases of Bright's Disease possible.

These daily reports should interest every family in which there is Bright's Disease and every physician in the U.S. Nothing but the prejudices and mistaken notions of the past can now prevent recovery in a great majority, but it is dangerous to let cases get as serious as the above before putting them on the treatment.

The new emollient treatment is known as Fulton's Renal Compound. It can be had in Greensboro from Fariss-Klutz Drug Co.

We desire every patient to write us who is not noting the usual improvement by the third week. Literature mailed free. Jno. J. Fulton Co., 645 Battery Street, San Francisco, Cal. We invite correspondence with physicians who have obstinate cases.

## CURIOUS COLOR NAMES.

*There Was Once an Extensive Group of Flea Shades.*

"Puce," which was for a long time the name given an exceedingly popular hue, is when translated from the French simply "flea." It appears that the accidental admission of a flea at a court festivity in France and the subsequent discovery and capture of the uninvited guest gave rise to a host of jokes and anecdotes, and so a new color was jocularly named in the insect's honor. Indeed, there was an extensive group of flea shades—old flea, young flea, flea's foot, lively flea and others. Puce, which was a kind of drab, is still familiar to the reading public through its frequent mention in literature, drama and letters of noted personages in the past.

Few of us, however, know anything of the following colors, each of which was a favorite in its day and as familiar to the speech of fashionable ladies and gentlemen as are the cerise, old rose, etc., of our own time. Here is a little list of them:

Marathon blue, drooping poppy, green of the Oreads, triumph of Aspasia, robe of Venus, bridal blush, canary's tail, merry hunter, flying chair, dolphin abut to die, thundercloud, innocent infant, caterpillar brown, fading hope, Cinderella russet, smoke of Vesuvius, penitent hermit, dissolving pearl, Cupid's feather, captain's glory, beautiful savage, ambushed wild beast, rose of Eden, faithful shepherd, weary traveler's shoe, agitated nymph and dream of the beloved one pink—Exchange.

## SLIPS IN WRITING.

*Curious Blunders Made by Reporters and Correspondents.*

Every once in awhile some schoolteacher comes forward with a list of ludicrous mistakes made in composition by her infant charges. The following laughable "breaks" were not made by school children, but by newspaper reporters and correspondents. Writing is their business, but they often make ridiculous mistakes in the haste of "catching an edition."

In a story about a mad dog scare on Staten Island the reporter wrote: "Policeman Jones drove the dog into a bush and killed it."

The head of a prominent Wall street house, in telling about the action of the directors of a certain company, was quoted as saying, "It came like a cannon ball out of a clear sky."

The report of the result of a damage suit: "Carminni Carusini was awarded a verdict of \$2,000 for injuries received by the jury from the Erie Railroad company."

This from a Brooklyn reporter: "He tried to end his life by suicide."

This one might have been due to an error in typewriting: "The girl was afflicted with typhoid fever."

A correspondent in a small town on Long Island, evidently laboring under great excitement, wired: "Mrs. George K. Blank was the heroine of the holocaust." (She played a garden hose on a burning barn.) In further describing the blaze he said, "The flames swept into furious environment." —New York World.

## Hexamethylenetetramine.

Is the name of a German chemical, one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and anti-septic for the urine. Take Foley's Kidney Remedy promptly at the first sign of kidney trouble and avoid a serious malady. Howard Gardner.

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that many women suffer from weakness and disease of the distinctly feminine organism and are unfit for motherhood. This can be remedied.

## Dr. Pierce's Favorite Prescription

*Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.*

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

*It Makes Weak Women Strong. It Makes Sick Women Well.* Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glycerin extract of healing, native American roots.
